

CENTRAL AR

Formation Evaluation Logging while Drilling in Unconventional Reservoirs Wednesday, Dec 3

**11:30am - 1:00 pm. Lunch provided
Faulkner County Natural Resource Center**

110 S. Amity Rd. - Conway, Arkansas 72032

**Formation Evaluation Logging While Drilling (LWD) & Wellbore
Placement in Unconventional Reservoirs
for Production Optimization.**

Terry Quinn holds a double B.S. degree in Chemistry and Physics from Tulane University. Currently Geoscience Applications Engineering Manager for INTEQ working closely with Logging While Drilling (LWD) measurements and applications, he began his career by joining Dresser Atlas in 1976 and has worked in operations, log analysis and petrophysics, and marketing. Terry has authored or co-authored 16 papers on topics as diverse as mineral evaluation in geothermal wells to thin bed analysis in young sediments, covering wireline, LWD, and wired pipe methods along with keynote and invited presentations. Having been very active in the Society of Petrophysicists and Well Log Analysts (SPWLA), Terry is currently the President of the SPWLA after serving as VP Technology as well as Regional Director and Chapter President, to name a few. A founding member of The High Angle Horizontal Well Special Interest Group, he served as co-chairman for 3 years. Terry is also a member of the SPE.
