

Making High Quality Frac Water Out of Oilfield Waste

**Presented by: Dr. Nate Hutchings PhD.
March 25th, 2010 – 11:30 am**

Faulkner County Natural Resource Center

110 S. Amity Rd – Conway, AR 72032

Dr. Nathan Hutchings is Bear Creek Service's President and Chief Operating Officer. Nate earned his B.S. in Biology and Chemistry from Eureka College (Eureka, Illinois), where he was trained through the Ronald Reagan Leadership Program. Nate subsequently earned his Ph.D. in Genetics from The University of Iowa (Iowa City, Iowa) and conducted Post-doctoral research in Cell & Structural Biology at The University of Illinois (Urbana-Champaign). Nate was an Assistant Professor of Biology and Co-director of the Interdisciplinary Experimentation and Scholarship (IDEAS) Program at Northwestern State University (Natchitoches, Louisiana). Nate became Chair and Associate Professor of the Department of Biological Sciences at Louisiana State University in Shreveport. Nate joined the Bear Creek management team in December of 2007 and was named President and Chief Operating Officer in February of 2009. Nate provides day-to-day leadership and operational support for all divisions of Bear Creek as well as technical support and technology development expertise for advancing practical solutions for spill clean up, water reclamation & recycling, and wastewater management in the Oil & Gas industry.
