

Important Factors that Effect Downhole Proppant Performance

**Presented by: John Turner
October 22, 2009 – 11:30 am
Faulkner County Natural Resource Center**

110 S. Amity Rd. – Conway, Arkansas 72032

John Turner is an Account Manager for Hexion's Oilfield Technology Group. He has worked with Hexion for the past 3 years in research, technical marketing, and sales. He is currently managing the global sales efforts for Hexion's patented non-radioactive tracer technology. Previously he did patent research on fracturing fluid systems at TBC-Brinadd. He started his career in the oil industry as an intern at KBR working on offshore projects during college. Turner has a degree in Biochemistry with a minor in Chemistry from the University of Houston.
